A benchmark in sports surfaces

GERFLOR FLEXIBLE FLOORING, A TRUE BENCHMARK IN INDOOR SPORTS SURFACES SINCE 1947!

Not just for high-level sports, Gerflor sports surfaces are also a benchmark for school gymnasiums and sports clubs. **From beginners and casual sports users to high-performance athletes, we help Champions of all levels to enjoy their sport in the best conditions.**

LES SOLS CLIPSABLES GERFLOR, GERFLOR CLIP-LOCK FLOORS, THE NEXT GENERATION OF OUTDOOR MULTISPORT SURFACES.

These clip-on tiles have been designed to provide the best conditions for outdoor sports practice. They can be used permanently for school and municipal sports spaces or temporarily for sporting events. They provide **safety, protection, and comfort**, and are also quick and easy to install. They will be used for the badminton and handball demonstration surfaces.

HIGH PERFORMANCE WOOD FLOORS AND SUB-STRUCTURES DESIGNED FOR EVENTS

Gerflor wood floors are designed for basketball played at the highest level. They are appreciated for their performance for both players and the bounce of the ball. Quick to install, these wood floors are the perfect solution for the Paris 2024 Olympic and Paralympic Games. The sub-structures provide the ideal solution under certain sports surfaces, offering the flexibility and flat surface required for the Paris 2024 games.

Eco-designed flooring, made in France & Europe

As part of its **we care / we act** initiative, Gerflor is particularly committed to reducing the carbon footprint of its flooring and limiting resource consumption. By offering **flooring containing on average 40% recycled material, and 100% recyclable**, the group confirms its commitment to the circular economy. **In addition, more than 75% of Gerflor sports flooring intended for Paris 2024 is made in France**, close to the main competition sites. Finally, Gerflor is engaged in identifying opportunities for the reuse of all floors employed during the Paris 2024 games in sporting or educational establishments after the competition. A commitment in line with the ambitions of Paris 2024 in terms of providing a second life for Olympic equipment, which will allow future users to practice sports on surfaces inaugurated by the world's greatest athletes.
